PREFACE

The Legislative Research Commission, established by Article 6B of Chapter 120 of the General Statutes, is a general purpose study group. The Commission is co-chaired by the Speaker of the House of Representatives and the President Pro Tempore of the Senate and has five additional members appointed from each house of the General Assembly. Among the Commission's duties is that of making or causing to be made, upon the direction of the General Assembly, "such studies of and investigations into governmental agencies and institutions and matters of public policy as will aid the General Assembly in performing its duties in the most efficient and effective manner" (G.S. 120-30.17(1)).

At the direction of the 1989 General Assembly, the Legislative Research Commission has undertaken studies of numerous subjects. These studies were grouped into broad categories and each member of the Commission was given responsibility for one category of study. The Co-chairs of the Legislative Research Commission, under the authority of G.S. 120-30.10(b) and (c), appointed committees consisting of members of the General Assembly and the public to conduct the studies. Co-chairs, one from each house of the General Assembly, were designated for each committee.

The study of the revenue laws and local government revenue sources was authorized by Section 2.1(12) of Chapter 802 of the 1989 Session Laws. That act states that the Commission may consider House Joint Resolution 3 and Senate Bill 1298 in determining the nature, scope, and aspects of the study. House Joint Resolution 3, introduced by Representative Daniel T. Lilley in the 1989 Session, gives the Legislative Research Commission's study of the revenue laws a very broad scope, stating that the "Commission may review the State's revenue laws to determine which laws need clarification, technical amendment, repeal, or other change to make the laws concise, intelligible, easy to administer, and equitable." In addition, the second edition of Senate Bill 1298 adopted in the 1989 Session recommends a study of "the need for additional local government revenue sources to supplement the property tax, local sales and use taxes, and other existing revenue sources." The relevant portions of Chapter 802, House Joint Resolution 3, and Senate Bill 1298 are included in Appendix A. The Legislative Research Commission grouped this study in its Taxation area under the direction of Representative John William Hurley. The Committee was chaired by Senator Dennis J. Winner and Representative Daniel T. Lilley. The full membership of the Committee and the staff assigned to the Committee are listed in Appendix B of this report.

COMMITTEE PROCEEDINGS

The Legislative Research Commission's Revenue Laws Study Committee met three times; the first two meetings were one-day meetings and the third meeting was a two-day meeting. The Committee devoted the majority of its time to fulfilling its mandate to study the impact of the sweeping tax changes made by the 1989 General Assembly. The Committee spent the remainder of its time considering proposals for various smaller substantive changes to the revenue laws and proposals for technical changes to the revenue laws. The Committee deferred discussion of options for additional local revenue sources until after the 1990 legislative session. A list of the speakers that appeared before the Study Committee is provided in Appendix C.

At its first meeting, the Committee reviewed the tax changes made by the 1989 General Assembly, focusing on the changes made by the legislation creating the North Carolina Highway Trust Fund, Chapter 692 of the 1989 Session Laws as amended by Chapters 700, 770, 788, and 799, and the changes made by the Tax Fairness Act of 1989, Chapter 728. The Trust Fund legislation repealed the sales tax on motor vehicles, imposed a titling tax on certificates of title issued for motor vehicles, increased the gasoline tax, increased various fees, and made numerous other changes. The Tax Fairness Act restructured the State's individual income tax as a percentage of federal taxable income and recognized S Corporations effective for the 1989 tax year. At its first meeting, the Committee also reviewed the success of its recommendations to the 1989 Session. Appendix D lists these recommendations and their status.

The Committee devoted most of its second meeting and part of its third meeting to the consideration of problems and concerns resulting from the Highway Trust Fund legislation. The Committee reviewed issues raised by taxpayers, the Department of Revenue, the Division of Motor Vehicles, Committee members, and State agencies affected by the titling tax. The Committee found several areas of the law that need technical change to effect the purposes of the legislation and several areas that need change to make the legislation fair and easier to administer. Legislative Proposal 1 contains the Committee's recommendations concerning the Trust Fund legislation.

The Committee devoted most of its third meeting to the consideration of problems and concerns resulting from the Tax Fairness Act. The Committee reviewed issues raised by the North Carolina Bar Association, the North Carolina Association of Certified Public Accountants, the Department of Revenue, taxpayers, and Committee

members. The Committee discussed problems created by the "speeded-up" recognition of S Corporations, taxpayers' complaints about the repeal of the special exemptions for various medical conditions, whether to adopt the federally indexed personal exemption and standard deduction amounts for the 1990 tax year, and various technical changes that need to be made. The Committee's recommendations related to the Tax Fairness Act are included in Legislative Proposals 2, 3, and 5.

Although the Committee focused on problems and concerns raised by the two major tax acts of the 1989 Session, the Committee also considered several proposals for miscellaneous changes in the revenue laws. The Committee considered whether to allow land owned by a trust to qualify for use-value classification under the property tax laws, whether to make uniform the time for appealing property tax decisions made by different units of local government, whether to increase the bond required for distributors of gasoline and suppliers of diesel fuel, whether to exempt fuel used by a small power producer from sales tax, and whether to modify the taxation of a North Carolina Enterprise Corporation.

The Committee declined to make a recommendation on the first of these smaller issues it considered, deciding that the issue should be referred to the Property Tax Study Commission. The Committee made recommendations on the other issues. Legislative Proposals 4, 6, 7, and 8 contain the Committee's recommendations on these issues.

Finally, the Committee addressed numerous technical changes that need to be made to the revenue laws. Legislative Proposal 9 contains the Committee's recommendations for technical changes.

The Committee expresses its appreciation for the assistance of Ms. Helen Powers, Secretary of Revenue, Mr. Myron Banks, Deputy Secretary of Revenue, the staff of the Department of Revenue, and the staff of the Division of Motor Vehicles. The Committee's task is made easier by the informed comments and suggestions of these tax administrators.

COMMITTEE RECOMMENDATIONS AND LEGISLATIVE PROPOSALS

The Revenue Laws Study Committee recommends the following legislation to the 1990 Session of the 1989 General Assembly. The Committee's legislative proposals consist of nine bills. The proposals cover a broad range of topics, including revisions to the new Highway Use Tax that applies when a title is issued for a motor vehicle, transitional adjustments to the Tax Fairness Act of 1989, tax relief for taxpayers with disabled dependents, and numerous technical and clarifying amendments to the revenue laws. Each proposed bill is followed by an explanation of the proposal and a fiscal note indicating the anticipated revenue gain or loss resulting from the proposal.

8 effective upon ratification.

Explanation of Proposal 1

The 1989 General Assembly established a \$9.1 billion highway program, created the North Carolina Highway Trust Fund to provide a separate source of funds for the program, and raised various taxes and fees to provide revenue for the Trust Fund. As part of the tax and fee increases, the General Assembly increased the motor fuel tax, repealed the 2%, \$300 maximum sales tax on motor vehicles and replaced that tax with a 3%, \$1000 maximum "highway use tax," increased the fee for issuing a certificate of title from \$5.00 to \$35.00, and increased related motor vehicle title and registration fees from varying amounts to \$10.00.

As part of its charge to study the impact of tax changes made in the 1989 Session, the Revenue Laws Study Committee considered the changes made by the Trust Fund legislation and the problems and concerns voiced about these changes by legislators, taxpayers, State departments, and local governmental units. The Committee identified several areas in need of technical amendment as well as several areas that need change to make the new highway use tax fair to taxpayers and easier to administer. Legislative Proposal 1 includes all changes concerning the 1989 Trust Fund legislation that are recommended by the Committee. These changes are described by subject matter below.

-----Reinstate Sales Tax On Mopeds and Tow Dollies

(Section 1 of Proposal 1)

The Highway Trust Fund legislation exempted motor vehicles from sales tax and imposed a titling tax, called a "highway use tax," on motor vehicles effective October 1, 1989. Mopeds and tow dollies are included in the sales tax definition of motor vehicle and are therefore exempt from sales tax. A moped is a motor vehicle that cannot go faster than 20 miles an hour and has a motor that does not exceed 50 cubic centimeters. A tow dolly is either an axle with a fifth wheel that is used to link two semi-trailers together behind a truck tractor or a device used to tow disabled vehicles that weigh less than 5,000 pounds.

As motor vehicles, mopeds and tow dollies are currently exempt from sales tax and are theoretically subject to the highway use tax. The highway use tax, however, is payable when a certificate of title is issued for a motor vehicle rather than when a

motor vehicle is purchased. Mopeds and tow dollies are not required to be titled and therefore escape taxation under the highway use tax.

The Revenue Laws Study Committee concluded that the exemption of mopeds and tow dollies from sales tax when the items are not subject to the new highway use tax is an unintended result of the Trust Fund legislation and that mopeds and tow dollies should either be subject to sales tax or be required to be titled and taxed under the highway use tax. Before October 1, 1989, mopeds and tow dollies were subject to sales tax at the rate of 2%, with a \$300 cap.

The Committee decided that it was better to reinstate sales tax on mopeds and tow dollies than to require them to be titled. Accordingly, Section 1 of Proposal 1 imposes sales tax on mopeds and tow dollies at the general State rate of 3% and the local rate of 2% for a combined rate of 5%. The Committee found that mopeds are more like bicycles than cars and trucks and should therefore be subject to the same sales tax rate as bicycles, which is 5%. The Committee further found that a tow dolly is a kind of motor vehicle part and accessory and should therefore be taxed at the same sales tax rate as other motor vehicle parts and accessories, which is 5%. The proposal is effective July 1, 1990.

Like other sales tax revenue, the 3% State sales tax revenue from mopeds and tow dollies will be placed in the General Fund. The local 2% sales tax revenue will be distributed to local units of government.

-----Reinstate Sales Tax on Certain Motor Vehicle Bodies

(Section 2 of Proposal 1)

Under the sales tax law in effect until October 1, 1989, the separate sales of a motor vehicle chassis and a motor vehicle body to be installed on the chassis were considered a single sale in applying the 2%, \$300 maximum sales tax. The Trust Fund legislation exempted motor vehicles as well as motor vehicle bodies from sales tax. The legislation exempted motor vehicle bodies so that motor vehicle bodies and motor vehicle chassis that are sold separately would continue to be treated as a single article and taxed under the highway use tax. The exemption was enacted under the assumption that highway use tax would be collected on the combined chassis and body when a certificate of title was issued for the resulting motor vehicle.

The Revenue Laws Study Committee found that this assumption is mistaken when a motor vehicle body is installed on a chassis that has already been titled. Frequently, for example, a truck body is damaged and the truck owner has a new body installed on

the truck. Because no new certificate of title is required in this circumstance, no highway use tax is due. The truck body, however, has escaped taxation under both the sales tax and the highway use tax.

The Committee therefore recommends that motor vehicle bodies that are installed on titled chassis be subject to sales tax at the general State rate of 3% and the local rate of 2%, for a combined rate of 5%. The Committee decided that a motor vehicle body is a kind of motor vehicle part and accessory and should be taxed at the same rate as other motor vehicle parts and accessories, which is 5%. Section 2 of Proposal 1 imposes sales tax on these motor vehicle bodies effective July 1, 1990.

----Establish A Uniform Long-Term Leasing Rate

(Sections 3, 4, and 5 of Proposal 1)

As part of the repeal of the sales tax on motor vehicles, the Trust Fund legislation repealed the 2%, \$300 maximum tax on the gross receipts from the lease or rental of a motor vehicle. In its place, the legislation created an optional gross receipts tax that lessors and renters of motor vehicles can elect to pay instead of paying the 3%, \$1,000 maximum highway use tax.

The optional tax is 8% of gross receipts for the first 90 days of a lease or rental to the same person and 3% of gross receipts after that. A lease or rental that extends for more than 90 days is therefore subject to two different rates: 8% for the first 90 days and 3% after that. Tax collected at the 8% rate, however, applies towards the \$1,000 maximum for a lease or rental to the same person. Revenue from the 8% gross receipts tax is credited to the General Fund and revenue from the 3% gross receipts tax is credited to the Trust Fund.

The rationale of establishing different rates for rentals and leases of different lengths of time is that a long-term lease is similar to the purchase of a vehicle and should therefore be taxed at the same rate as an actual purchase of a vehicle. A vehicle purchased by someone who is not going to lease or rent the vehicle is subject to the 3%, \$1,000 maximum highway use tax.

The Revenue Laws Study Committee heard numerous complaints about the two-tiered tax rate on long-term leases and rentals from representatives of the long-term leasing industry. The representatives explained that the two-tiered rate was costly to administer and was forcing lessors to pay the highway use tax rather than exercise the option of paying on gross receipts.

The Revenue Laws Study Committee determined that the concerns of the leasing industry were valid and that a 3% uniform long-term leasing rate could be established. To offset any reduction in revenue from decreasing the rental rate for the first 90 days of a long-term lease from 8% to 3%, the Committee recommends that the 8% rate apply to all leases or rentals for less than a year and that the 3% rate apply to all leases or rentals made under a contract to lease or rent a motor vehicle for at least one year.

Sections 3, 4, and 5 of Proposal 1 implement this recommendation. Section 3 amends the definition of lease or rental so the definition can be applied without redundancy when referring to a long-term lease or rental and a short-term lease or rental. Section 4 adds definitions of "long-term lease or rental" and "short-term lease or rental." Section 5 rewrites the statute that sets out the alternate gross receipts tax to set the rate at 8% for a short-term lease or rental and 3% for a long-term lease or rental. The recommendation is effective July 1, 1990.

As recommended, a long-term lease or rental of a motor vehicle is a lease or rental made under a written contract to lease or rent a vehicle to the same person for at least one year. A short-term lease or rental is any other lease or rental. Thus, if a vehicle is leased under a written three-year lease, the tax rate on the gross receipts for the entire period of the lease is 3%. Similarly, if a vehicle is leased under a written two-year lease and the lease is terminated before the end of the first year of the lease, the tax rate for the entire period the vehicle was actually leased is nevertheless 3%. If a vehicle is rented on a month-to-month basis, for a fixed period of less than 1 year, or on the basis of an oral agreement, the tax rate on the gross receipts for the entire period of the rental is 8%.

----Lower the Minimum Highway Use Tax From \$40 To \$20

(Sections 6, 7, and 8 of Proposal 1)

The Trust Fund legislation repealed the 2%, \$300 maximum sales tax on motor vehicles and replaced it with the highway use tax. The highway use tax is 3% of the retail value of a motor vehicle but cannot be less than \$40.00 nor more than \$1,000. In addition to the \$40.00 minimum highway use tax, a titling fee of \$35.00 plus a registration plate fee of \$10.00 must be paid when a certificate of title is issued for a newly-acquired motor vehicle.

Members of the Revenue Laws Study Committee received correspondence from constituents who are concerned about the high minimum tax, particularly when it is applied to motor vehicles of low value. The Committee debated the issue and

determined that the minimum tax is very regressive, particularly when coupled with the \$35.00 fee, and that it is not fair to collect the same amount of tax on a vehicle valued at \$1,300 as on a vehicle valued at \$250.00.

The Committee therefore recommends that the minimum tax be lowered from \$40.00 to \$20.00. The Committee debated eliminating the minimum tax so that all motor vehicles would be taxed under the highway use tax on the basis of value only. The Committee declined to recommend eliminating the minimum tax out of concern for the loss of Trust Fund revenue resulting from the recommendation.

Sections 6, 7, and 8 of Proposal 1 implement this recommendation. Section 6 lowers the minimum tax to \$20.00 and Sections 7 and 8 change references to the amount of the minimum tax. This recommendation is effective July 1, 1990.

Under this recommendation, motor vehicles ranging in value up to \$690.00 are all subject to the same \$20.00 minimum tax. Above this value, the amount of tax increases because 3% of the value is more than \$20.00. The recommendation does not affect the \$35.00 title fee.

----- Make Submission of Bad Checks In Payment Of The Highway Use Tax Grounds For Suspending Or Revoking A Dealer's License

The highway use tax imposed by the Trust Fund legislation must be paid before a certificate of title is issued for a motor vehicle. Because many motor vehicle dealers apply for a certificate of title for vehicles bought from them, the legislation allows a dealer to collect the highway use tax payable on a motor vehicle and remit the tax to the Division of Motor Vehicles when the dealer applies for a title on behalf of the buyer of the motor vehicle. The Division of Motor Vehicles has received approximately \$15,000 in bad checks from dealers in payment of the highway use tax.

The Division asked the Committee to consider giving the Division a remedy for the submission of bad checks by dealers. Under current law, the Division can remove the registration plate from any vehicle for which a bad check was given in payment of the highway use tax. The Division noted that it does not seem fair to remove the plate from a vehicle when the owner of the vehicle paid the tax to a dealer and the dealer submitted a bad check to the Division.

In response to this request, the Committee recommends that the Division of Motor Vehicles be given the authority to revoke or suspend a motor vehicle dealer's license if the dealer submits a bad check to the Division in payment of the highway use tax. Sections 9 and 10 of Proposal 1 implement this recommendation.

Section 9 inserts a sentence in the highway use tax statutes that alerts those who collect the tax of the power to suspend or revoke a dealer's license. Section 10 amends the statute that lists the grounds for adverse action on various licenses concerning the sale of motor vehicles to add submitting bad checks in payment of the highway use tax as a grounds for adverse action. The recommendation is effective upon ratification.

-----Give The Department of Revenue The Authority to Audit Motor Vehicle Lessors and Renters Who Elect To Pay On Gross Receipts

(Section 11 of Proposal 1)

The gross receipts tax on motor vehicles is now an elective alternate to the highway use tax and is set out in the highway use tax statutes. The Division of Motor Vehicles collects the highway use tax, but the Department of Revenue collects the gross receipts tax. Under prior law, the gross receipts tax on motor vehicles was part of the sales tax law and was administered by the Department of Revenue.

Because the statutes that levy the gross receipts tax are now part of the statutes that are administered by the Division of Motor Vehicles rather than the Department of Revenue, the question arose of whether the Department's audit authority extends to those who pay the gross receipts tax to the Department. To resolve this question, the Committee recommends that the Department of Revenue be given the same authority to audit those who pay the gross receipts tax that it has to audit those who remit sales and use taxes. The Committee further recommends that the Division of Motor Vehicles be given specific authority to request the Department of Revenue to conduct an audit of a person who pays the gross receipts tax. Section 11 of Proposal 1 implements this recommendation.

-----Exempt Various Transfers of Motor Vehicles From The Highway Use Tax

(Section 12 of Proposal 1)

The Revenue Laws Study Committee heard numerous complaints from taxpayers about the imposition of the highway use tax on various transfers of motor vehicles. Taxpayers complained most about transfers that occur for a reason other than the sale of the vehicle. The most frequent complaint was lodged against transfers to the same owner because of a name change. The second most frequent complaint was about transfers to a beneficiary upon the death of the former owner.

Unlike the former sales tax on motor vehicles, which was payable only when a motor vehicle was sold, the highway use tax is payable every time a certificate of title is

issued for a motor vehicle. A title is issued every time a motor vehicle is transferred to a new owner or the owner changes names, regardless whether any cash changes hands in the transfer.

In addition to complaints about the application of the tax to circumstances that do not involve a sale, the Committee heard concerns raised by the Department of Human Resources and the Department of Public Education about the tax imposed on vehicles purchased by each Department or by local governmental units. The Department of Human Resources voiced concern about the tax imposed on vans equipped for the handicapped, and the Department of Public Instruction voiced concern about the tax imposed on public school buses and vehicles used in driver education programs in the public schools.

In response to these complaints and concerns, the Committee recommends that the following motor vehicles be exempt from the highway use tax:

1. Vehicles for which a new title is issued because the owner changed names.
2. Vehicles transferred to the Department of Human Resources to be equipped for use by the handicapped and then transferred to a handicapped person.
3. Public school buses.
4. Vehicles used in the driver education program of a public school.
5. Vehicles transferred as a result of the death of the former owner.

Currently, the vehicles described in items 1 and 5 are subject to only the minimum \$40.00 tax. The other vehicles are subject to tax at the rate of 3%, with a \$1,000 cap.

----Election To Pay Highway Use Tax on October 1, 1989, Inventory (Section 13 of Proposal 1)

The Highway Trust Fund legislation repealed the sales tax on motor vehicles effective October 1, 1989, imposed a titling tax on motor vehicles, and gave lessors and renters of motor vehicles an option of either paying the new 3% titling tax when purchasing a vehicle for lease or rental or waiving payment of the titling tax and collecting a tax on the lease or rental receipts. The law did not give lessors and renters an option of paying titling tax on vehicles owned on the effective date of the change.

Representatives of the leasing and rental industry brought this subject to the attention of the Revenue Laws Study Committee and pointed out that the failure to extend the same option to inventory owned on October 1 creates bookkeeping problems for lessors and renters and prevents them from having a uniform policy concerning the tax. In response to this, the Committee developed Section 13 of Proposal 1.

Section 12 allows lessors and renters of motor vehicles to elect to pay the new 3% highway use tax on motor vehicles owned by them on October 1, 1989, the effective date of the tax change. In doing so, it gives them the same option on their existing inventory that they have on vehicles purchased since October 1, 1989.

A lessor or renter who elects to pay the titling tax under the proposal will pay tax based on the retail value of the vehicle. The retail value for these motor vehicles is the wholesale book value of the vehicle as determined in accordance with schedules of value adopted by the Commissioner of Motor Vehicles. The retail value may be less than or greater than the lessor's or renter's book value of the vehicle, which is based on cost less depreciation.

-----**Make Technical Corrections To Laws Affected By The Trust Fund Legislation
(Sections 12, 14, 15, 16, and 17 of Proposal 1)**

The Committee identified several technical changes that need to be made as a result of the Trust Fund changes concerning taxes and fees. Sections 12, 14, 15, 16, and 17 of Proposal 1 make the necessary technical changes. The changes:

1. Make it clear that a motor vehicle sold for lease or rental is not exempt from the highway use tax under G.S. 105-187.6(a)(2). This clarification is necessary because the sales tax definition of "sale," which applies to the titling tax, includes lease or rental.
2. Delete an inaccurate reference in G.S. 105-187.6(b)(4) to the filing of a security interest in a motor vehicle with the Secretary of State. Security interests in most motor vehicles are perfected by filing with the Division of Motor Vehicles.
3. Allocate gas tax refunds made to the Cherokee Tribe between the Highway Fund and the Highway Trust Fund in accordance with the 75%/25% split for other refunds.
4. Delete unnecessary and inaccurate language in G.S. 20-57(b) concerning the fee imposed for issuing a copy of a registration card for a motor vehicle. G.S. 20-85 sets the fee at \$10.00.
5. Delete unnecessary and inaccurate language in G.S. 20-85 concerning an exception to the fee schedule set in 20-85. G.S. 20-68 does not contain an exception to the fee schedule in 20-85 and has not since 1975.

9 Section 1. G.S. 105-131.4 reads as rewritten:

10 "§ 105-131.4. Carryforwards; carrybacks; loss limitation.

11 (a) Carryforwards and carrybacks to and from an S Corporation

18 in the stock and indebtedness of the S Corporation.

19 (c) Any loss or deduction that is disallowed for a taxable
20 period pursuant to subsection (b) of this section shall be
21 treated as incurred by the corporation in the succeeding taxable

23 (d) (1) Any loss or deduction that is disallowed pursuant
24 to subsection (b) of this section for the

1 corporation's last taxable period as an S
2 Corporation shall be treated as incurred by the

5 (2) The aggregate amount of losses and deductions taken
6 into account by a shareholder pursuant to
7 subdivision (1) of this subsection may not exceed
8 the adjusted basis of the shareholder in the stock
9 of the corporation (determined in accordance with
10 G.S. 105-131.3 at the close of the last day of any
11 post-termination transition period and without
12 regard to this subsection).

13 (e) Each shareholder's pro rata share of the reduction of an S

15 loss to the S Corporation under this subsection shall be taken
16 into account by the shareholder as a transitional adjustment
17 under G.S. 105-134.7. Notwithstanding the provisions of
18 subsection (a) of this section, an S Corporation that sustained a
19 net economic loss in a taxable year beginning before January 1,
20 1989, may carry the loss forward to a taxable year beginning on
21 or after January 1, 1989, and before July 1, 1990, and may deduct
22 the loss in that year to the extent it could have carried forward
23 and deducted the loss pursuant to G.S. 105-130.5(b)(4) and G.S.
24 105-130.8 if the S Corporation Income Tax Act had not become

30 subject to the limitations provided in G.S. 105-131.4(b) and (d).
31 Notwithstanding the provisions of G.S. 105-131.3, the basis of a
32 shareholder in the stock of an S Corporation shall be adjusted
33 for the shareholder's pro rata share of the carryforward loss
34 allowed as a deduction to the S Corporation under this
35 subsection. Notwithstanding the provisions of G.S.
36 105-131.6(c)(2), the accumulated adjustments account maintained
37 for each resident shareholder shall be adjusted for the
38 shareholder's pro rata share of the carryforward loss allowed as
39 a deduction to the S Corporation under this subsection."

40 Sec. 2. G.S. 105-151.19 reads as rewritten:

41 "§ 105-151.19. Credit for North Carolina dividends.

42 There is allowed as a credit against the tax imposed by this
43 Division an amount equal to six percent (6%) of the amount of
44 dividends received by the taxpayer during the taxable year from

1 stock issued by a qualified corporation, up to a maximum credit
2 of three hundred dollars (\$300.00) per taxpayer for the taxable
3 year. A corporation is a qualified corporation if fifty percent
4 (50%) or more of the dividends from stock issued by the
5 corporation would be deductible by a corporate shareholder for
6 the taxable year under the provisions of G.S. 105-130.7(1), (2),
7 (3), (3a), or (5) except that no credit shall be allowed for
8 dividends ~~issued with respect to deemed distributable from~~
9 ~~earnings~~ for a taxable period during which the corporation is an
10 S Corporation subject to the provisions of Division I-S of this
11 Article.

12 This credit applies only with respect to dividends received
13 while the taxpayer was a resident of this State. In the case of
14 a married couple filing a joint return where both spouses
15 received dividends during the taxable year, the three hundred
16 dollar (\$300.00) maximum applies separately to each spouse's
17 dividends for a potential total credit of six hundred dollars
18 (\$600.00) for the couple. This credit may not exceed the amount
19 of tax imposed by this Division for the taxable year reduced by
20 the sum of all credits allowed under this Division, except
21 payments of tax made by or on behalf of the taxpayer."

22 Sec. 3. Notwithstanding any other provision of law,
23 with respect to dividends received by a taxpayer from an S
24 Corporation and included in the taxpayer's North Carolina taxable
25 income under Division II of Article 4 of Chapter 105 of the
26 General Statutes for the taxpayer's 1989 taxable year, if (i) the
27 dividends were distributed during the corporation's 1988 taxable
28 year which began on or after January 2, 1988, and ended on or
29 after January 1, 1989, or (ii) the dividends were distributed
30 before October 1, 1989, then the three hundred dollar (\$300.00)
31 limitation in G.S. 105-151.19 shall not apply and any credit
32 otherwise allowable with respect to these dividends shall be
33 allowed without regard to the three hundred dollar (\$300.00)
34 limitation. No additional credit is allowed under G.S.
35 105-151.19 for dividends distributed on or after October 1, 1989,
36 from an S Corporation during its 1989 taxable year, to the extent
37 the taxpayer's total credit under G.S. 105-151.19 for the taxable
38 year exceeds three hundred dollars (\$300.00).

39 Sec. 4. G.S. 105-134.6(b) reads as rewritten:
40 "(b) Deductions. The following deductions from taxable income
41 shall be made in calculating North Carolina taxable income, to
42 the extent each item is included in gross income:
43 (1) Interest upon the obligations of (i) the United
44 States or its possessions, (ii) this State or a

- 1 political subdivision of this State, or (iii) a
2 nonprofit educational institution organized or
3 chartered under the laws of this State.
- 4 (2) Interest upon obligations and gain from the
5 disposition of obligations to the extent the
6 interest or gain is exempt from tax under the laws
7 of this State.
- 8 (3) Benefits received under Title II of the Social
9 Security Act and amounts received from retirement
10 annuities or pensions paid under the provisions of
11 the Railroad Retirement Act of 1937.
- 12 (4) Any amount not to exceed one thousand five hundred
13 dollars (\$1,500) received by the taxpayer during
14 the taxable year as compensation for the
15 performance of duties as a member of the North
16 Carolina organized militia, the national guard as
17 defined in G.S. 127A-3.
- 18 (5) Refunds of State, local, and foreign income taxes
19 included in the taxpayer's gross income.
- 20 (6) a. An amount, not to exceed four thousand dollars
21 (\$4,000), equal to the sum of the amount
22 calculated in subparagraph b. plus the amount
23 calculated in subparagraph c.
24 b. The amount calculated in this subparagraph is
25 the amount received during the taxable year
26 from one or more state, local, or federal
27 government retirement plans.
28 c. The amount calculated in this subparagraph is
29 the amount received during the taxable year
30 from one or more retirement plans other than
31 state, local, or federal government retirement
32 plans, not to exceed a total of two thousand
33 dollars (\$2,000) in any taxable year.
34 d. In the case of a married couple filing a joint
35 return where both spouses received retirement
36 benefits during the taxable year, the maximum
37 dollar amounts provided in this subdivision
38 for various types of retirement benefits apply
39 separately to each spouse's benefits.
- 40 (7) The amount of inheritance tax attributable to an
41 item of income in respect of a decedent required to
42 be included in gross income under the Code,
43 adjusted as provided in G.S. 105-134.5, 105-134.6,
44 and 105-134.7. The amount of inheritance tax

1 attributable to an item of income in respect of a
2 decedent is (i) the amount by which the inheritance
3 tax paid under Article 1 of this Chapter on

- 16 (5) The amount of any net operating loss for a taxable

- 23 (6) A loss or deduction that was incurred or paid and
24 deducted from State taxable income in a taxable
25 year beginning before January 1, 1989, and is
26 carried forward and deducted in a taxable year
27 beginning on or after January 1, 1989, under the
28 Code shall be added to taxable income.
- 29 (7) The transitional adjustments provided in Division
30 I-S of this Article shall be made with respect to a
31 shareholder's pro rata share of S Corporation
32 income.
- 33 (8) Notwithstanding the provisions of subdivision (2)
34 of this subsection, in the case of property that
35 the taxpayer elected to expense under section 179
36 of the Code for a taxable year beginning on or

38 an allowance for depreciation equal to the amount
39 that would have been allowed under former G.S.
40 105-147(12)(repealed) each year until the amount
41 deductible for depreciation is equal to the amount
42 deducted under section 179 of the Code. Amounts
43 deductible under this subdivision may not be
44 deducted from taxable income under subdivision (2)

1 of this subsection in the year the taxpayer
2 disposes of the property."

3 Sec. 6. G.S. 105-151.18 reads as rewritten:

4 "§ 105-151.18. Credit for the disabled.

5 (a) Disabled Taxpayer. A person taxpayer who (i) is retired on
6 disability, (ii) at the time of retirement, was permanently and
7 totally disabled, disabled as defined in section 22 of the Code,
8 and (iii) claims a federal income tax credit under section 22 of
9 the Code for the taxable year, is allowed as a credit against the
10 tax imposed by this Division an amount equal to one-third of the
11 amount of the federal income tax credit for which he the taxpayer
12 is eligible under section 22 of the Code.

13 (b) Disabled Dependent. If a dependent for whom a taxpayer is
14 allowed an exemption under the Code is permanently and totally
15 disabled, the taxpayer is allowed a credit against the tax
16 imposed by this Division. In order to claim the credit allowed
17 by this subsection, the taxpayer must attach to the tax return on
18 which the credit is claimed a statement from a physician or local
19 health department certifying that the dependent for whom the
20 credit is claimed is permanently and totally disabled, as defined
21 in this section. The amount of the credit allowed shall be
22 determined as follows: For a taxpayer whose North Carolina
23 adjusted gross income does not exceed the appropriate income
24 amount provided in the table below, based on the taxpayer's
25 filing status, the credit allowed is the appropriate initial
26 credit provided in the table below. For a taxpayer whose North
27 Carolina adjusted gross income does exceed the appropriate income
28 amount, the credit allowed is the appropriate initial credit
29 reduced by five dollars (\$5.00) for every one thousand dollars
30 (\$1,000) by which the taxpayer's North Carolina adjusted gross
31 income exceeds the appropriate income amount.

<u>Filing Status</u>	<u>Initial Credit</u>	<u>Income Amount</u>
<u>Head of Household</u>	<u>\$ 80.00</u>	<u>\$16,000</u>
<u>Surviving Spouse or</u> <u>Joint Return</u>	<u>\$100.00</u>	<u>\$20,000</u>
<u>Married Filing Separately</u>	<u>\$ 50.00</u>	<u>\$10,000</u>

41 (c) Definitions. The following definitions apply in this
42 section:

1 (1) North Carolina Adjusted Gross Income. Adjusted
2 gross income, as determined under the Code,
3 adjusted as provided in G.S. 105-134.6 and G.S.
4 104-134.7.

5 (2) Permanently and Totally Disabled. Unable to engage
6 in any substantial gainful activity by reason of
7 any medically determinable physical or mental
8 impairment that can be expected to result in death
9 or that has lasted or can be expected to last for a
10 continuous period of not less than 12 months.

11 (d) Limitations. A nonresident or part-year resident who
12 claims the credit allowed by this section shall reduce the amount
13 of the credit by multiplying it by the fraction calculated under
14 G.S. 105-134.5(b) or (c), as appropriate. The credit allowed
15 under this section may not exceed the amount of tax imposed by
16 this Division for the taxable year reduced by the sum of all
17 credits allowed under this Division, except payments of tax made
18 by or on behalf of the taxpayer."

19 Sec. 7. Section 1 of this act is effective
20 retroactively for taxable years beginning on or after January 1,
21 1989, and shall expire for taxable years beginning on or after
22 July 1, 1990. Section 6 of this act is effective for taxable
23 years beginning on or after January 1, 1990. The remainder of
24 this act is effective retroactively for taxable years beginning
25 on or after January 1, 1989.

Explanation of Proposal 2

On August 7, 1989, the General Assembly enacted a sweeping reform of the State's personal income tax system effective for taxable years beginning on or after January 1, 1989. This legislation, known as the Tax Fairness Act of 1989, revised the Individual Income Tax Act by using federal taxable income as the starting point for determining an individual's North Carolina taxable income. The Tax Fairness Act is by far the most comprehensive revision of the Individual Income Tax Act since it was enacted in its modern form in the 1930s. The new legislation affects virtually every step required in calculating an individual's State income tax and indirectly affects numerous related tax statutes.

The Tax Fairness Act, originally introduced in the 1987 General Assembly, was studied and debated by the 1987 General Assembly and by two legislative committees between the 1987 and 1989 Sessions, the Revenue Laws Study Committee and the Tax Fairness Study Commission. In 1989, the legislation was again studied, debated, and revised by the General Assembly. The changes made by the Tax Fairness Act were so extensive that, despite the scrutiny it received from the General Assembly, the Department of Revenue, tax professionals, and the public, there were still some tax consequences of the rewrite that were not discovered until after its enactment. The Revenue Laws Study Committee was directed to study the impact of the tax law changes enacted in 1989. The Department of Revenue, the North Carolina Bar Association, the North Carolina Association of Certified Public Accountants, legislators, and members of the public all contacted the committee with suggestions for improvements to the new law to better enable it to achieve its goals of fairness, simplicity, and efficiency. A number of these suggestions were adopted and included in Legislative Proposal 2.

----Subchapter S Corporations

Since 1958, federal income tax law has allowed certain corporations having fewer than 35 shareholders to elect to be taxed as "Subchapter S Corporations." Under the S Corporation option, items of income and loss are not taxable to the corporation but are passed through to the shareholders in the same way items of income and loss of a partnership are taxed to the individual partners. In 1988, the General Assembly

enacted legislation to provide that the State would allow S Corporation tax treatment for federal S Corporations. This legislation was to become effective for taxable years beginning on or after July 1, 1990. Then, in 1989, the Tax Fairness Act incorporated the 1988 S Corporation legislation into its provisions with a new effective date of January 1, 1989. After the end of the 1989 Session, members of the Revenue Laws Study Commission and other legislators were contacted about tax problems caused by the acceleration of the effective date of the S Corporation legislation by the Tax Fairness Act of 1989. The January 1, 1989, effective date set by the Tax Fairness Act, ratified in August 1989, created unanticipated tax consequences for actions that were taken before the act was ratified, and eliminated the planning period allowed by the original July 1, 1990, effective date of the S Corporation law.

One problem of particular concern is the disallowance of carryovers of pre-1989 losses. The original S Corporation law provided that net economic losses sustained before the effective date of the act could not be carried forward to offset income in later tax years. This provision was agreed upon by all interested parties in 1988; the impact of the provision on taxpayers was mitigated somewhat by the delayed effective date, which gave taxpayers time to plan for the change. This planning period was lost when the Tax Fairness Act changed the effective date to January 1, 1989, causing unanticipated tax increases for numerous small businesses in North Carolina, including many farmers.

In order to provide relief for taxpayers in this situation, the Revenue Laws Study Committee adopted Section 1 of Legislative Proposal 2, which would restore to taxpayers the delayed effective date for the disallowance of loss carryforwards. Pre-1989 net economic losses could be carried forward by the corporation and used to offset the corporation's income in 1989 and 1990, and this offset would be passed through to the shareholders in those tax years. The proposal would be retroactive to the 1989 tax year, allowing affected taxpayers to file amended returns for that year.

The Revenue Laws Study Committee also studied a similar problem, a one-time "double taxation" of certain distributions made by S Corporations in 1989. For an S Corporation that does not use the calendar year as its tax year, certain earnings for the corporation's 1988 tax year were taxed at the corporate level under the old law, because the corporation's tax year started before 1989, and also at the individual level under the new law, because the earnings, distributed as dividends, were included in the shareholder's 1989 taxable income. For calendar year corporations that made distributions of 1988 earnings in early 1989, the earnings were taxed at the corporate

level under the old law and then distributed as dividends when the then current law provided that the shareholder would receive a full dividend deduction. After the distribution was made, the new law made these dividends taxable with only a limited tax credit, subject to a \$300 maximum, allowed. The change in the law thus subjected these dividends to unanticipated "double taxation."

In developing a proposal to provide relief in this situation, the Revenue Laws Study Committee considered fairness, ease of administration, and fiscal impact. The proposal selected by the committee, Sections 2 and 3 of Legislative Proposal 2, provides a full tax credit, without any maximum, for distributions from pre-1989 earnings made before October 1, 1989, or made by a fiscal year corporation during its 1988 tax year. The use of a credit rather than a deduction makes the one-time relief easier for the Department of Revenue to administer and easier for taxpayers to comply with. The proposal balances fiscal and fairness considerations by retaining the 6% credit rate. The proposal would be retroactive to the 1989 tax year, allowing affected taxpayers to file amended returns.

-----Mortgage Interest Deduction

Section 25 of the Internal Revenue Code provides that first-time home buyers who do not exceed certain income and sales price levels may obtain a Mortgage Credit Certificate (MCC). The MCC enables the homeowner to take a federal tax credit of up to 25% of his or her annual mortgage interest payments. The portion of the interest that is taken as a credit may not also be taken as a deduction in calculating federal taxable income. North Carolina does not allow a tax credit for MCC holders; it does use federal taxable income as the starting point in calculating North Carolina taxable income. As a result, an MCC holder whose mortgage interest deduction under the Code was reduced by the amount of the federal credit will not be able to deduct the full amount of the mortgage interest for North Carolina tax purposes. When it enacted the Tax Fairness Act of 1989, the General Assembly did not intend to disallow full deduction of interest for MCC holders, who tend to be lower income taxpayers; the disallowance occurred as a result of an oversight. In order to correct this oversight, the Revenue Laws Study Committee adopted Section 4 of Legislative Proposal 2, which would allow a taxpayer to deduct from taxable income the amount of his or her mortgage interest that was not deducted under the Code due to the taxpayer's use of the mortgage interest credit. The proposal would be retroactive to the 1989 tax year, allowing affected taxpayers to file amended returns for that year.

-----Depreciation Transition Adjustment

In rewriting the Individual Income Tax Act to use federal taxable income as the starting point for calculating a taxpayer's North Carolina income tax, the Tax Fairness Act of 1989 provided a number of transitional adjustments to allow taxpayers to take into account pre-1989 differences between the State income tax law and the Internal Revenue Code. Where these differences resulted in a different basis in property for State tax purposes and federal tax purposes, the new law provided that the taxpayer would take the difference into account when the property was disposed of. For example, where the property's basis was higher for federal income tax purposes than for State income tax purposes, the difference would be recognized as additional gain when the taxpayer disposed of the property. In the same way, where the basis was higher for State tax purposes, less gain would be recognized under State tax law when the taxpayer disposed of the property.

The Revenue Laws Study Committee was informed that some taxpayers were displeased with the latter transitional adjustment in the case of property that had been expensed under Section 179 of the Code before the 1989 tax year. Section 179 allows a taxpayer to elect to treat the cost of certain property as an expense that is not chargeable to capital account and may be deducted in the year the property is placed in service. Before 1989, North Carolina did not allow such an election; rather than deducting the cost of the property in the year it was placed in service, the taxpayer was allowed depreciation deductions under former G.S. 105-147(12), spread out over a number of years. For property that was expensed under Section 179 before 1989 and was being depreciated for State tax purposes, the Tax Fairness Act provided that the State depreciation deductions would be discontinued beginning in 1989 and the difference in basis for State and federal tax purposes would result in lower State taxable income in the year the property was disposed of. Thus, the taxpayer was required to postpone the benefit of the depreciation deductions that would have been allowed in 1989 and the years following under the prior law.

The Revenue Laws Study Committee adopted Section 5 of Legislative Proposal 2 to address this situation. Section 5 would require a taxpayer who expensed property before 1989 to take the depreciation deductions that would have been allowable under the former State law. For all other situations that result in a difference in basis, the difference would continue to be taken into account when the taxpayer disposes of the property.

-----Disabled Dependents Tax Credit

Until the 1989 tax year, North Carolina provided an additional \$1,100 personal exemption for taxpayers and some dependents with certain physical conditions. Families with severely retarded dependents were eligible for a \$2,200 personal exemption. Before the repeal of these exemptions in 1989, they covered 13 different diseases and physical conditions. Anyone who had one of the named conditions received a tax benefit, regardless whether the impact of the condition was disabling. Many other debilitating diseases and disabling conditions were not, however, named in the law, so persons subject to these conditions did not receive a similar tax benefit.

Because these personal exemptions were deducted from gross income, they had a regressive tax impact. That is, persons with higher incomes received a greater benefit from the exemptions than persons with lower incomes. For example, a low-income person who was in the 3% tax bracket would receive a \$33.00 reduction in tax by claiming a \$1,100 personal exemption; a higher-income person who was in the top tax bracket (7%) would receive a \$77.00 reduction in tax by claiming the same personal exemption.

These personal exemptions were repealed by the Tax Fairness Act of 1989. By adopting the federal personal exemption and standard deduction amounts, the law should reduce or eliminate income taxes for the State's poorest citizens and reduce taxes for most lower-to-middle income families. Higher income taxpayers should experience a small percentage increase in tax. In enacting the new law, it was felt that most of the persons who had previously benefitted from the special tax breaks based on certain diseases and disabilities would actually pay less tax under the new law, and thus would not be hurt by the elimination of these exemptions.

The Tax Fairness Act of 1989 also adopts the federal rules that allow additional standard deduction amounts for taxpayers who are 65 or older and/or blind. The new law adopts the federal credit for the disabled, which shelters a low-income taxpayer's disability income from tax. The law also expands the amount of the dependent care credit that applies to dependents who are mentally or physically unable to care for themselves.

In reviewing these tax benefits, the Revenue Laws Study Committee decided there was a need to provide additional tax relief for taxpayers who have dependents who are disabled. The Committee adopted Section 6 of Legislative Proposal 2, which would allow a new tax credit, avoiding the regressive effect of a deduction which benefits

persons with higher income more than persons with lower income. The credit would apply equally to all who are disabled, rather than singling out certain physical conditions for favorable treatment while providing no relief for others. The maximum credit allowed would be \$100.00 for a surviving spouse or couple filing a joint return; the amount of the credit would decrease as the taxpayer's income increased over \$20,000 and would phase out completely for taxpayers with income above \$40,000. For a head of household, the maximum credit would be \$80.00, phased out for taxpayers with income between \$16,000 and \$32,000. Thus, the proposal is crafted to provide the greatest benefit to the neediest families with disabled dependents.

PROPOSAL 2

FISCAL REPORT
FISCAL RESEARCH DIVISION
APRIL 19, 1990

Overview of Bill:

The 1989 General Assembly overhauled the state personal income tax for the first time since its inception in 1921 by tying the state tax calculation to federal taxable income and applying 6% and 7% rate brackets. The new act became effective for the 1989 tax year.

Due to the late ratification date of the new act and the 1989 effective date, concern has been expressed by many taxpayers about the short lead time in adjusting their financial decisions to the new law. In many cases, the new law created unanticipated tax consequences for acts taken in 1989 before the act was ratified. In addition, there are some technical language changes needed to clarify the new tax code.

S CORPORATION CHANGES

Background Information

Since 1958, federal tax law has allowed certain closely-held corporations to be taxed in a form similar to a partnership. Under current rules, corporations with less than 35 owners are exempt from the corporate income tax with items of income and loss being passed through each year to the shareholders.

During the 1988 session, the General Assembly allowed S Corporation filing for state purposes, effective for tax years beginning on or after July 1, 1990 (January 1, 1991 for calendar years corporations). The enactment of SB 51 accelerated the effective date of S Corporation filing to the 1989 tax year.

Explanation of Changes

- (1) Regular corporations are allowed to carry forward net economic losses for up to five years. The language in the 1988 S Corporation act (carried forward to SB 51) did not allow losses at the corporate level prior to the conversion to S Corporation status to be used to offset income under the new system. However, the 2 1/2-3 year planning period under the 1988 allowed affected taxpayers time to plan for and adjust to the change. The acceleration of S Corp filing under SB 51 eliminated this tax planning period.

Proposal 2 amends SB 51 by restoring the delayed effective date of S Corp tax filing with respect to the provision that disallows loss carryforwards. Thus, pre-1989 net economic losses can be carried forward and used to offset the corporation's income in 1989 and 1990 and this offset would be passed through to individual shareholders. The shareholders could capture this offset for the 1989 tax year by filing an amended return.

- (2) A case of double taxation can occur under the new law in the situation of certain distributions (such as dividends) made by an S Corp during the 1989 calendar year. For an S Corp that does not use the calendar year as its fiscal year, earnings for the corporation's 1988 fiscal year that were distributed during its 1989 fiscal year were taxed at the corporate level for 1988 and then as dividends to shareholders for the 1989 calendar year. Under prior tax law double taxation could be avoided in many cases through the \$15,000 deduction for N.C. dividends (equivalent to a \$1,050 tax benefit). SB 51 contains a smaller offset for many taxpayers (\$300 tax credit).

Proposal 2 allows taxpayers an unlimited tax credit for distributions from pre-1989 earnings made before October 1, 1989, or made by a fiscal year corporation during the 1988 calendar year. The taxpayer could capture this relief for the 1989 tax year by filing an amended return.

Effective Date:

Tax years beginning on or after January 1, 1989.

Fiscal Effect:

There is little good data on the amount of loss carryforwards that exist in North Carolina or the impact of the dividend credit. Using IRS data on federal S Corporation losses and the number of phone calls received by the Department of Revenue on this issue suggests the enactment of these portions of the bill could reduce General Fund tax revenue by as much as \$2 million for the 1989 tax year refund. The impact on 1990-91 from the loss carryforward provision may be as much as \$1 million. There would be no impact in future years.

MORTGAGE CREDIT CERTIFICATE

Background Information:

In 1984 the U.S. Congress included in its tax adjustment package a proposal to allow states to create a mortgage certificate credit program (MCC). The N.C. Housing Finance Agency (NCHFA) began offering the program in 1987 through 111 lending institutions.

Under the MCC qualified first-time home buyers may take 15% or 25% of their mortgage interest costs as federal income tax credit instead of a deduction. The credit allows the homeowner a significant increase in federal tax relief for home ownership. For example, a married couple with \$25,000 or gross income and \$4,000 of mortgage interest would receive \$1,450 of tax relief (assuming a 25% credit) under the special credit option versus \$600 under the straight deduction.

The North Carolina income tax base uses federal taxable income as a starting point. Since the federal itemized deduction for mortgage costs is reduced by the credit base, North Carolinians using the federal credit are not able to offset the full amount of their interest costs.

Explanation of Change:

Allows North Carolina taxpayers receiving the federal mortgage certificate credit to deduct from their state taxable income the amount of the federal credit base, thereby ensuring that 100% of their mortgage costs are deductible for state purposes.

Effective Date:

Tax years beginning on or after January 1, 1989.

Fiscal Effect:

Would reduce General Fund tax revenue by \$345,000 for the 1990-91 fiscal year. In addition, there could be \$260,000-345,000 of one-time refunds in 1990-91 for the 1989 tax year.

DISABILITY TAX CREDIT

Background Information

Prior to SB 51 taxpayers and/or dependents were allowed an additional personal income tax exemption of \$1,100 (\$2,200 in one case) for certain physical conditions (regardless of whether the condition led to the person being disabled). During each legislative session a couple of new conditions were made eligible for the exemption. In 1988, a total of 13 special exemptions were covered. No other state allowed such treatment.

SB 51 allows a state tax credit of one-third the federal credit for taxpayers who receive disability income. The credit phases down as the taxpayer's income rises. The new law also allows a higher standard deduction for taxpayers who are blind. There is no special relief for disabled dependents.

Explanation of Change

Allows taxpayers to take a tax credit for disabled dependents at the following base amount:

	Adjusted Gross Income		
	Maximum Credit	At Beginning of Phase-Down	At End of Phase-Down
Head-Of-Household	\$80	\$16,000	\$32,000
Married, filing jointly	100	20,000	40,000
Married, filing separately	50	10,000	20,000

Effective Date

1990 tax year.

Fiscal Effect

Under prior law the additional exemptions provided \$33 of relief for the lowest income taxpayers and \$77 for taxpayers in the highest bracket. The total cost of these special exemptions was approximately \$4 million.

The \$4 million cost of the prior exemptions would need to be adjusted for the following items to determine the cost of the proposed credit:

- (1) The broad-based nature of the credit means that more disabilities would be covered
- (2) The credit applies to dependents only, while the exemption applied to dependents *and* taxpayers in some cases
- (3) Many low-income taxpayers were taken off the tax rolls under SB 51
- (4) The relief per taxpayer under the credit is generally greater than under the prior exemption but the income phase-out will limit the credit to low- and middle-income taxpayers.

SECTION 179 PROPERTY

Background Explanation:

Under Section 179 of the Internal Revenue Code a taxpayer is allowed to expense (fully deduct in year of purchase) up to \$10,000 of personal property used in a trade or business. The basis (purchase price and related costs) of personal property above this amount must be depreciated over a 7 year period. The depreciation is then "recaptured" when the property is disposed of.

Because North Carolina tax law has never allowed the Sec. 179 expensing, the basis of such property had been different for federal and state purposes. The transitional language in SB 51 would have adjusted the basis in the year in which the property was disposed of. The effect is to eliminate the annual depreciation of the property and to make a one-time adjustment when the property is sold.

Explanation of Provision:

Amends the 1989 transition language to allow a taxpayer who took the Sec. 179 election for a tax year beginning before January 1, 1989 to continue depreciating the property until the total depreciation equals the amount the taxpayer originally expensed for federal tax purposes.

Effective Date:

Tax years beginning on or after January 1, 1989.

Fiscal Effect:

The one-time impact on General Fund tax revenue for 1989 tax year refunds will be \$2.0-2.5 million, depending on how many eligible taxpayers actually file for refunds. The on-going cash-flow impact on each year's tax collections is a reduction of \$2.6 million, beginning with the 1990-91 fiscal year.

Over the long-run there is no net impact as the continuance of the depreciation deduction will mean a larger depreciation recapture when the property is disposed of.

Explanation of Proposal 3

Legislative Proposal 3 rewrites the definition of the Internal Revenue Code used in State tax statutes to change the reference date from January 1, 1989, to January 1, 1990. Updating the reference makes recent amendments to the Internal Revenue Code applicable to the State to the extent that State tax law previously tracked federal law. This update has the greatest effect on State corporate and individual income taxes because these taxes are based on federal taxable income and are therefore closely tied to federal law. The inheritance tax, franchise tax, and intangibles tax also determine some exemptions based on the provisions of the Code.

Since the State corporate income tax was changed to a percentage of federal taxable income in 1967, the reference date to the Internal Revenue Code has been updated periodically. In discussing bills to update the Code reference, the question frequently arises as to why the statutes refer to the Code as it existed on a particular date instead of referring to the Code and any future amendments to it, thereby eliminating the necessity of bills like this. The answer to the question lies in both a policy decision and a potential legal restraint.

First, the policy reason for specifying a particular date is that, in light of the many changes made in federal tax law recently and the likelihood of continued changes, the State may not want to adopt automatically federal changes, particularly when these changes result in large revenue losses. By pinning references to the Code to a certain date, the State ensures that it can examine any federal changes before making the changes effective for the State.

Secondly, and more importantly, however, the North Carolina Constitution imposes an obstacle to a statute that automatically adopts any changes in federal tax law. Article V, § 2(1) of the Constitution provides in pertinent part that the "power of taxation... shall never be surrendered, suspended, or contracted away." Relying on this provision, the North Carolina court decisions on delegation of legislative power to administrative agencies, and an analysis of the few federal cases on this issue, the Attorney General's Office concluded in a memorandum issued in 1977 to the Director of the Tax Research Division of the Department of Revenue that a "statute which adopts by reference future amendments to the Internal Revenue Code would... be invalidated as an unconstitutional delegation of legislative power."

Each year, in deciding whether the Internal Revenue Code reference should be updated, the Revenue Laws Study Committee considers the changes that have been made to the Code in the past year. The Revenue Laws Study Committee learned this year that the 1989 Code changes will have only a negligible impact on the State corporate income tax. There were a number of Code changes, however, that will affect the State individual income tax; these changes are outlined in Appendix E. The most significant of these changes, allowance of a deduction for self-employment taxes, will reduce individual income tax revenues.

Legislative Proposal 3 also adopts a provision of the Code that increased the personal exemption and standard deduction amounts for the 1990 tax year. The Tax Fairness Act of 1989 established federal taxable income, as determined under the Code, as the starting point for North Carolina taxable income. The federal personal exemption and standard deduction amounts are subtracted as part of the calculation of federal taxable income. Under the Code, these federal amounts are increased automatically each year based on increases in the cost of living due to inflation. Automatically indexing the exemption and deduction amounts in this way assures that taxpayers pay more taxes if they have real increases in income but not if their income increases only at the same rate as inflation. The Tax Fairness Act of 1989 did not adopt the federal indexing based on inflation; State income tax law uses the federal exemption and deduction amounts set by the Code without regard to automatic increases based on inflation. As a result, a North Carolina taxpayer must add to North Carolina taxable income the difference between the federal base amounts and the indexed amounts. In addition, a taxpayer whose income increases by less than the amount by which the cost of living increased will pay higher taxes.

The Revenue Laws Study Committee investigated whether North Carolina should adopt inflation indexing of the personal exemption and standard deduction amounts. Adopting indexing causes State income tax revenues to grow more slowly each year than they otherwise would. On the other hand, adopting indexing makes it easier for North Carolina citizens to calculate their taxes and protects them from some of the negative effects of inflation. After balancing these considerations, the Committee decided to recommend adoption of the federally indexed amounts for the current tax year, 1990. Whether to adopt inflation indexing for later years can be decided each year based on considerations relevant to that year. The Committee also decided that the update of the personal exemption and standard deduction amounts should be combined with the update of the Code reference, and that the income tax rate

thresholds should be adjusted to make the entire package revenue-neutral. The change in tax thresholds, provided in Section 3 of Legislative Proposal 3, will apply the 7% rate to more of each taxpayer's taxable income, thereby generating revenue to offset the decrease in taxes resulting from adoption of larger personal exemptions and standard deductions as well as the new deduction for self-employment taxes.

PROPOSAL 3

FISCAL REPORT
FISCAL RESEARCH DIVISION
APRIL 23, 1990Background Information:

Under the Tax Fairness Act of 1989 (SB 51), the state personal income tax was completely overhauled. The new state tax uses federal taxable income as the starting point and two tax rates (6% and 7%). The new law conformed to the Internal Revenue Code as of January 1, 1989.

By using federal taxable income as the starting point in the state calculation, the federal personal exemption level of \$2,000 per person was adopted. The conformity language was written so that the 1988 standard deduction levels (\$5,000 for married couple filing jointly) were used.

Under federal law, the personal exemption and standard deduction amounts are indexed annually to the rise in the Consumer Price Index.

Explanation of Proposal:

- (1) Updates state conformity to the Internal Revenue Code from January 1, 1989 to January 1, 1990. The effect of updating conformity is to pick up the handful of federal tax changes from last year, to increase personal exemptions from \$2,000 to \$2,050, and to increase the standard deductions by 8-9% (from \$5,000 for a married couple filing jointly to \$5,450).
- (2) To offset the impact of the higher personal exemptions and standard deduction amounts, the income threshold at which the 7% rate schedule applies is lowered as follows:

	<u>Tax Rate</u>	<u>Current Brackets</u>	<u>Proposed Brackets</u>
Married filing jointly, surviving spouse	6% 7%	\$1-\$21,250 \$21,251 & over	\$1-\$14,500 \$14,501 & over
Head-of-household	6% 7%	\$1-\$17,000 \$17,001 & over	\$1-\$11,600 \$11,601 & over
Single person	6% 7%	\$1-\$12,750 \$12,750 & over	\$1-\$8,700 \$8,701 & over
Married filing separately	6% 7%	\$1-\$10,625 \$10,626 & over	\$1-\$7,250 \$7,251 & over

Effective Date:

Upon ratification.

Fiscal Effect:

The tax rate schedule was adjusted to threshold levels that would lead to no annual change in General Fund tax revenue, based on the best data available.

5 action or defense based upon the invalidity of or any
6 irregularity in the referendum shall be asserted, nor shall the
7 validity of the referendum be open to question in any court upon
8 any ground whatever, except in an action or proceeding begun
9 within the period of limitation prescribed herein.

10 Except for supplemental school taxes and except for tax
11 referendums on functions not included in subsection (c) of this
12 section, any referendum held before July 1, 1973, on the levy of
13 property taxes is not valid for the purposes of this subsection.
14 Counties in which such referendums have been held may support
15 programs formerly supported by voted property taxes within the
16 general rate limitation set out in subsection (c) at any
17 appropriate level and are not subject to the former voted rate
18 limitation."

19 Sec. 5. G.S. 153A-149(e) reads as rewritten:

20 "(e) With an approving vote of the people, any county may
21 increase the property tax rate limitation imposed in subsection
22 (c) and may call a referendum for that purpose. The referendum
23 may be held at the same time as any other referendum or election,
24 but may not be otherwise held within the period of time beginning
25 30 days before and ending 30 days after any other referendum or
26 election. The referendum shall be conducted by the county board
27 of elections.

28 The proposition submitted to the voters shall be substantially
29 in the following form: "Shall the ~~effective~~ property tax rate
30 limitation applicable to County be increased from
31 on the one hundred dollars (\$100.00) value of property
32 subject to taxation to on the one hundred dollars
33 (\$100.00) value of property subject to taxation?"

34 If a majority of those participating in the referendum approve
35 the proposition, the rate limitation imposed in subsection (c)
36 shall be increased for the county."

37 Sec. 6. G.S. 160A-209(e) reads as rewritten:

38 "(e) With an approving vote of the people, any city may levy
39 property taxes for any purpose for which the city is authorized
40 by its charter or general law to appropriate money. Any property
41 tax levy approved by a vote of the people shall not be counted
42 for purposes of the rate limitation imposed in subsection (d).

43 The city council may call a referendum on approval of a
44 property tax levy. The referendum may be held at the same time as

1 any other city referendum or city election, but may not be
2 otherwise held (i) on the day of any federal, State, district, or
3 county election already validly called or scheduled by law at the
4 time the tax referendum is called, or (ii) within the period of
5 time beginning 30 days before and ending 10 days after the day of
6 any other city referendum or city election already validly called
7 or scheduled by law at the time the tax referendum is called. The
8 referendum shall be conducted by the same board of elections that
9 conducts regular city elections. A notice of referendum shall be
10 published in accordance with G.S. 163-287. The notice shall state
11 the date of the referendum, the purpose for which it is being
12 held, and a statement as to the last day for registration for the
13 referendum under the election laws then in effect.

14 The proposition submitted to the voters shall be substantially
15 in one of the following forms:

16 (1) Shall the City/Town of be authorized to
17 levy annually a property tax at an effective a rate not in excess
18 of cents on the one hundred dollars (\$100.00) value of
19 property subject to taxation for the purpose of
20?

21 (2) Shall the City/Town of be authorized to
22 levy annually a property tax at a rate not in excess of that
23 which will produce \$ for the purpose of
24?

25 (3) Shall the City/Town of be authorized to
26 levy annually a property tax without restriction as to rate or
27 amount for the purpose of?

28 If a majority of those participating in the referendum approve
29 the proposition, the city council may proceed to levy annually a
30 property tax within the limitations (if any) described in the
31 proposition. Unless otherwise provided in the proposition
submitted to the voters, a vote on a property tax levy not to
exceed a specified rate per one hundred dollars (\$100.00) value
of property subject to taxation is a vote on an effective rate
per one hundred dollars (\$100.00) of appraised value of property
before the application of any assessment ratio.

37 The board of elections shall canvass the referendum and certify
38 the results to the city council. The council shall then certify
39 and declare the result of the referendum and shall publish a
40 statement of the result once, with the following statement
41 appended: 'Any action or proceeding challenging the regularity or
42 validity of this tax referendum must be begun within 30 days
43 after (date of publication).' The statement of results shall be

1 filed in the clerk's office and inserted in the minutes of the
2 council.

3 Any action or proceeding in any court challenging the
4 regularity or validity of a tax referendum must be begun within
5 30 days after the publication of the results of the referendum.
6 After the expiration of this period of limitation, no right of
7 action or defense based upon the invalidity of or any
8 irregularity in the referendum shall be asserted, nor shall the
9 validity of the referendum be open to question in any court upon
10 any ground whatever, except in an action or proceeding begun
11 within the period of limitation prescribed herein.

12 Except for tax referendums on functions not included in
13 subsection (c) of this section, any referendum held before July
14 1, 1973, on the levy of property taxes is not valid for the
15 purposes of this subsection. Cities in which such referendums
16 have been held may support programs formerly supported by voted
17 property taxes within the general rate limitations set out in
18 subsection (d) at any appropriate level and are not subject to
19 the former voted rate limitation."

20 Sec. 7. G.S. 160-209(f) reads as rewritten:

21 "(f) With an approving vote of the people, any city may
22 increase the property tax rate limitation imposed in subsection
23 (c) and may call a referendum for that purpose. The referendum
24 may be held at the same time as any other city referendum or
25 election, but may not be otherwise held (i) on the day of any
26 federal, State, district, or county election, or (ii) within the
27 period of time beginning 30 days before and ending 30 days after
28 the day of any other city referendum or city election. The
29 election shall be conducted by the same board of elections that
30 conducts regular city elections.

31 The proposition submitted to the voters shall be substantially
32 in the following form: 'Shall the ~~effective~~ property tax rate
33 limitation applicable to the City/Town of be
34 increased from on the one hundred dollars (\$100.00)
35 value of property subject to taxation to on the one
36 hundred dollars (\$100.00) value of property subject to taxation?'

37 If a majority of those participating in the referendum approve
38 the proposition, the rate limitation imposed in subsection (c)
39 shall be increased for the city."

40 Sec. 8. This act is effective upon ratification.

Explanation of Proposal 4

Legislative Proposal 4 changes the date that starts the 30-day period in which a property owner has to appeal certain property tax decisions of the board of county commissioners. It also clarifies when a notice of appeal submitted by mail is considered received by the Property Tax Commission and deletes obsolete references in the local government statutes to assessment ratios.

A property owner has 30 days from the date of entry to file a notice of appeal with the Property Tax Commission from a decision of the board of county commissioners. The 30-day period begins on the date the decision is mailed to the property owner for an order of the board of equalization and review. Section 1 amends G.S. 105-290(e) to provide that the date on which the local board's decision is mailed starts the clock for either board.

Section 2 amends G.S. 105-290(g) to provide that a notice of appeal submitted by mail shall be deemed to be filed as of the date shown on the postmark. The current law provides that a notice is considered filed when it is received in the office of the Property Tax Commission. The existing language does not address notices submitted by mail. The change suggested in this section would prevent a taxpayer's right of appeal from being affected by how quickly the mail travels.

Sections 3 through 7 remove obsolete language from the city and county statutes. Prior to 1974, North Carolina did not use 100% assessment for property tax purposes. The board of county commissioners adopted a uniform percentage of the amount at which property in the county had been appraised as the value to be used in taxing the property. This percentage was known as the "assessment ratio". The local government statutes, in defining the property tax rate a city or county can levy, refers to the assessment ratio. When the State decided to assess all property at its true value, the application of any assessment ratio, and the corresponding language in these statutes, became unnecessary.

Section 8 provides that this act is effective upon ratification.

14 attributable to any extent to payments or
15 contributions made by the decedent, no exemption
16 shall be allowed for that part of the value of such

20 decedent."

21 Sec. 2. This act shall become effective September 1,
22 1990, and shall apply to the estates of decedents dying on or
23 after that date.

Explanation of Proposal 5

Legislative Proposal 5 makes changes in the inheritance tax law relating to taxation of certain retirement and deferred compensation benefits. North Carolina's inheritance tax is a tax on the value of property that is transferred as a result of the death of an individual. Where the property is transferred to a surviving spouse, it is exempt from tax. The inheritance tax statutes divide all other beneficiaries into three classes--A, B, and C. Class A beneficiaries, lineal ancestors and descendants of the decedent (including stepchildren and adopted descendants), are allowed a collective credit of \$26,150 against the tax imposed on property transferred to them. This credit effectively exempts at least the first \$500,000 in property transferred to Class A beneficiaries. Other relatives and unrelated beneficiaries are taxed on all property passing to them.

The inheritance tax law exempts the value of an annuity payable to a survivor under a federal employee retirement program. Until 1989, amounts received from State and local retirement programs and deferred compensation funds were also exempt from inheritance tax. These exemptions were repealed in 1989, however, after the United States Supreme Court held in Davis v. Michigan that a state cannot give its own former employees more favorable tax treatment than it gives former federal employees. The Revenue Laws Study Committee weighed three proposals to equalize the inheritance tax treatment of federal, state, and local government employees: (i) eliminate the federal exemption, (ii) restore a state and local exemption equal to the federal exemption, or (iii) restore a state and local exemption for both annuities and deferred compensation and add an exemption for federal deferred compensation payments. The Committee devised a compromise, Legislative Proposal 5, which would restore the inheritance tax exemption for state and local government retirement and deferred compensation payments upon death, extend the existing exemption to include federal government deferred compensation payments upon death, and limit both exemptions to amounts receivable by Class A beneficiaries only. Amounts receivable by other beneficiaries would not be exempt from inheritance tax. The bill would become effective September 1, 1990, and would apply to the estates of decedents dying on or after that date.

PROPOSAL 5

**FISCAL REPORT
FISCAL RESEARCH DIVISION
APRIL 16, 1990**

Explanation of Proposal:

For years there has been a State inheritance tax exemption for the value of an annuity paid to a survivor under a federal employee retirement program, but not for a deferred compensation plan. Prior to 1989, the state and local retirement system law provided a blanket exemption from all state taxes for retirement benefits (including deferred compensation) for state and local retirees.

The *Davis v. Michigan* decision provided that a state could provide no greater tax relief to the retirement pay of its own employees (including local government) than that granted to federal retirees. The effect of this decision was to force a decision on whether to allow a full exclusion to federal deferred compensation benefits for survivors or to eliminate the exclusion for state and local retirees. As part of the pension tax re-write in response to *Davis*, the state and local exclusion was eliminated.

Transfers to spouses are totally exempt from the inheritance tax. In general, the first \$500,000 of property (including the present value of an annuity) transferred to Class A beneficiaries (lineal ancestors, lineal descendants) is exempt. Class B beneficiaries (other relatives) and Class C beneficiaries (non-relatives) receive no exemption.

Explanation of Proposal:

- (1) Extends the existing inheritance tax exemption for survivors of federal retirees to include the present value of deferred compensation benefits.
- (2) Limits the inheritance tax exemption for the value of federal, state, and local survivor annuities and deferred compensation plans to Class A beneficiaries.

Effective Date:

Deaths occurring on or after September 1, 1990.

Fiscal Effect:

Because estates are allowed nine months to file an inheritance tax return after a death, the enactment of the proposal would have no impact on General Fund tax revenue for the current 1989-91 biennium.

The impact on future years will be insignificant because:

- (1) Most survivor annuity and deferred comp beneficiaries go to the spouse (fully exempt from tax)
- (2) There is a \$500,000 exemption for transfers to other Class A beneficiaries
- (3) Eliminating Class B beneficiaries from the exclusion will help offset any revenue loss from extending the federal exclusion to deferred compensation benefits

30 Sec. 2. G.S. 105-449.5 reads as rewritten:

31 "§ 105-449.5. Supplier to file bond.

36 amount of the bond shall in no case be less than five hundred

38 (\$40,000). Such bond shall be in such form and with such surety
39 or sureties as may be required by the Secretary, conditioned upon
40 making proper reports and paying the tax provided for in this
41 Article, and otherwise complying with the provisions of this
42 Article. A supplier who is also required to be bonded under G.S.
43 105-433 as a distributor of motor fuels may file a single bond,
44 under either this section or under G.S. 105-433 for the combined

1 amount required under these sections, ~~sections but not exceeding~~
2 ~~eighty thousand dollars (\$80,000)~~, and conditioned upon
3 compliance with the requirements of Article 36 and Article 36A of
4 this Subchapter. A supplier required to file a bond under this
5 section shall, within 30 days after receiving a notice from the
6 Secretary, file an additional bond in the amount requested by the
7 Secretary. The amount of the initial bond and any additional
8 bonds filed by the supplier, however, may not exceed the limits
9 set in this section."

10 Sec. 3. This act shall become effective January 1,
11 1991.

Explanation of Proposal 6

Legislative Proposal 6 increases the maximum bond that may be required of fuel distributors and suppliers. Distributors of motor fuel are subject to the Gasoline Tax under Article 36 of Chapter 105 of the General Statutes. Distributors must obtain a license from the Department of Revenue and post a bond in the amount required by the Secretary of Revenue, up to a maximum of \$40,000. Suppliers of special fuels are subject to the Special Fuels Tax under Article 36A of Chapter 105 of the General Statutes. Suppliers must obtain a license from the Department of Revenue and post a bond in the approximate sum of three times the supplier's average monthly tax liability, up to a maximum of \$40,000. Distributors who are also suppliers may obtain a single bond to cover both taxes, up to a maximum bond of \$80,000.

The Department of Revenue notified the Revenue Laws Study Committee that one of its taxpayers recently defaulted on over \$1,000,000 in gasoline tax liability and had filed for bankruptcy. The State will probably be unable to recover most of this liability beyond the \$80,000 bond coverage. Many other taxpayers have monthly liabilities well in excess of the maximum bond amounts. The Department of Revenue stated that substantial amounts of State tax proceeds may be at risk due to the increasing number of delinquencies and bankruptcies of fuel distributors and suppliers. The Department suggested that a maximum bond requirement of three times the taxpayer's average monthly liability would be appropriate to protect the State's interests.

A representative of the Petroleum Marketers' Association, Donald M. Ward, informed the Committee that this increase in the maximum bond might harm small businesses. The Committee directed Mr. Ward to work with the Department of Revenue to craft a proposal that would protect the interests of the State without placing an undue burden on small businesses. The Committee adopted a compromise, Legislative Proposal 6, that would increase the maximum bond liability to two times the taxpayer's average monthly liability. The bill would become effective January 1, 1991. If the Department of Revenue and the Petroleum Marketers' Association develop another compromise that might better balance the needs of the State and the needs of small businesses, that compromise could be submitted as a committee substitute for Legislative Proposal 6 during the 1990 Session.

PROPOSAL 7 (90-LJ-R12)
THIS IS A DRAFT

Short Title: No Sales Tax on Small Power Producer (Public)

Sponsors:

Referred to:

1 A BILL TO BE ENTITLED
2 AN ACT TO ALLOW A SALES TAX EXEMPTION FOR FUEL USED BY A SMALL
3 POWER PRODUCER TO GENERATE ELECTRICITY.
4 The General Assembly of North Carolina enacts:
5 Section 1. G.S. 105-164.13 is amended by adding a new
6 subdivision to read:
7 "(8a) Sales to a small power production facility, as
8 defined in 16 U.S.C. § 796(17)(A), of fuel
9 used by the facility to generate electricity.""
10 Sec. 2. This act shall become effective July 1, 1990.

Explanation of Proposal 7

Proposal 7 creates a sales tax exemption for fuel used by a small power producer to generate electricity. Without the exemption, the fuel would be subject to sales tax at the rate of 1% under G.S. 105-164.4(a)(1c)d.

The United States Code, in 16 U.S.C. § 796(17)(A), defines a "small power production facility" as a facility that produces energy by using primarily biomass waste, renewable resources, geothermal resources, or any combination of these and has a power production capacity of not more than 80 megawatts. The purpose of the federal law is to encourage the production of energy from alternative energy sources.

A small power production facility is under construction in Craven County that will use wood chips as its source of fuel. Representatives of the facility addressed the Revenue Laws Study Committee and requested that the wood chips that will be used by the facility be exempted from sales tax. The spokesperson stressed that the wood chips should be treated the same as coal, which is exempt from sales tax under an exemption for products of the mine or the forest in their original state.

The Committee considered the current sales tax law on fuel. As noted, coal used to generate electricity is exempt from sales tax under G.S. 105-164.13(3). Piped natural gas used to generate electricity is subject to State sales tax at the rate of 3% and is not subject to local sales tax. Other fuel used to generate electricity is subject to State sales tax under G.S. 105-164.4(a)(1c)d. at the rate of 1% and is not subject to local sales tax.

The Committee decided to recommend the exemption as part of a policy of encouraging the use of alternative fuels. Also, the Committee found little difference between the wood chips intended for use by the Craven facility and coal. The exemption, however, applies to any fuel used by a small power production facility and could include solid waste in the event a facility pays for solid waste used to convert to electricity. The proposal becomes effective July 1, 1990.

PROPOSAL 7

FISCAL REPORT

FISCAL RESEARCH DIVISION

APRIL 17, 1990

Explanation of Proposal:

Proposal 7 exempts from sales tax fuel used by a small power producer to generate electricity.

Effective Date:

July 1, 1990.

Fiscal Effect:

This proposal has no immediate fiscal effect because there are no operating small power producers that purchase fuel. The few small power producers currently in operation use solid waste or methane gas produced from solid waste and do pay for the waste or the gas.

When the Craven County project becomes operational, there will be an annual loss of State sales tax revenue of \$60,950 and no loss of local sales tax revenue because the exempt fuel would have been subject to State sales tax only. If all the other five small power producer projects with plans to use fuel that is potentially subject to sales tax become operational, the annual loss in State sales tax revenue could be an additional \$30,000, for a total of \$90,950.

27 Sec. 7. This act is effective for taxable years
28 beginning on or after January 1, 1990.

Explanation of Proposal 8

Legislative Proposal 8 makes two changes in the laws enacted in 1988 concerning North Carolina Enterprise Corporations. First, it changes the way a North Carolina Enterprise Corporation is taxed under the corporate income tax, the franchise tax, and the intangibles tax to treat an Enterprise Corporation like a regulated investment company or a real estate investment trust rather than like a typical corporation. Second, it extends the tax credit allowed for those who invest in a North Carolina Enterprise Corporation to include the gross premiums tax payable by insurance companies.

A North Carolina Enterprise Corporation is a corporation organized under Chapter 53A of the General Statutes to, in effect, provide venture capital for economic development in rural North Carolina. Since the enactment of the authorizing legislation in 1988, one Enterprise Corporation has been established. The Corporation has received subscriptions for a total of \$20 million in capital stock, \$10 million of which is from the State. The State encourages investment in the Corporation by others by allowing a tax credit against income tax and franchise tax of 25% of the amount invested or \$750,000, whichever is less.

Changing the laws to treat the Enterprise Corporation as a regulated investment company or a real estate investment trust will have the following effects:

- (1) For franchise tax, the change will reduce the tax base of the Corporation by the market value of its investments in stocks, bonds, and debentures.
- (2) For corporate income taxes, the change will exempt from tax the income of the Corporation that is distributed or set aside for distribution to investors in the Corporation.
- (3) For intangible personal property taxes, the change will exempt stocks, bonds, and evidences of debt owned by the Corporation from tax.

Extending the tax credit to include the gross premiums tax will allow insurance companies that invest in the Enterprise Corporation to reduce the gross premiums taxes payable by them by 25% of the amount invested or \$750,000, whichever is less. Insurance companies do not pay corporate income tax or franchise tax and therefore do not have the same incentive under current law as other corporations and financial institutions to invest in the Enterprise Corporation. Extension of the credit to insurance

companies does not affect the annual \$12 million ceiling on the total credits for investments in the Enterprise Corporation.

The Revenue Laws Study Committee considered this proposal at the request of the North Carolina Enterprise Corporation. The Committee endorses the Corporation and its purpose but was somewhat hesitant to recommend what appears to be tax exemptions for fear of encouraging other entities to request similar treatment. The Committee nevertheless decided to recommend this proposal and to present the issue to the 1990 Session.

In adopting the recommendation, the Committee urged the Corporation to consider amending its authorizing legislation so that the Corporation can be organized as a limited partnership rather than as a corporation. Organization as a partnership would benefit the Corporation by eliminating the issue of federal or State corporate income tax and state franchise tax and would not create the appearance of granting exemptions from tax.

35 of this section, the Commissioner of Insurance shall assess a
36 penalty on underpayments that is equal to the interest rate

Explanation of Proposal 9

Legislative Proposal 9 makes numerous technical and clarifying changes to the revenue laws and related statutes. The following table provides a section-by-section analysis of the proposed changes.

<u>Section</u>	<u>Explanation</u>
1	Deletes a cross-reference to a statute that was repealed in 1988.
2	Corrects an incorrect cross-reference that was added in 1989.
3	Corrects ungrammatical construction.
4	Effective July 1, 1990, repeals an obsolete, redundant statute providing for licensure of certain emigrant agents. All emigrant agent licenses are now issued under G.S. 105-90, which essentially duplicates 105-90.1. Both the Department of Revenue and the Employment Security Commission confirmed that G.S. 105-90.1 serves no known function.
5	Deletes a cross-reference to a statute that was repealed in 1989 and corrects a cross-reference to a subsection that was renumbered in 1989.
6-7	Clarifies and separates criminal and civil penalties for violation of the Controlled Substance Tax Act and clarifies that interest applies to overdue taxes.
8-9	Clarifies that reporting requirements imposed on law enforcement agencies by the Controlled Substance Tax Act apply only to arrests where drugs seized are subject to tax.
10-11	Deletes language in two franchise tax statutes that relates to provisions repealed as obsolete in 1989.
12	As requested by the Department of Revenue, changes from December 31 to September 30 the cut-off date relating to the return to be used for computing the proportion of dividends deductible for corporate income tax purposes and the stock value not taxable for intangibles tax purposes. The modification is needed by the Department to enable the Intangibles Tax Division to publish annually the booklet, <u>Stock and Bond Values</u> , in a more complete and timely manner.
13	Both the corporate income tax and the individual income tax allow a credit for construction of a fuel ethanol distillery; the 1987 bill rewriting these

<u>Section</u>	<u>Explanation</u>
	credits was amended at the last minute to extend the sunset date from 1993 to 1994 for the individual income tax credit. Apparently through oversight, the corporate income tax credit sunset was not similarly extended. This section would extend the corporate income tax credit sunset date from 1993 to 1994.
14	Updates reference to the former Department of Commerce, now the Department of Economic and Community Development.
15	Removes "corporation" from the definition of a person under the Individual Income Tax Act. Requested by the Department of Revenue.
16	Effective beginning with the 1990 tax year, this section authorizes the Secretary of Revenue to issue individual income tax tables, similar to tables issued by the Internal Revenue Service and many other states. This section will simplify tax preparation for North Carolina citizens. Requested by the Department of Revenue.
17	Makes language changes that were included in a 1989 act but did not take effect due to an error in the coded bill drafting format.
18	Corrects an incorrect cross-reference added in 1989.
19	Corrects an ambiguous cross-reference, thus clarifying that the tax rates for single individuals apply to nonresident partners of a North Carolina partnership.
20	Deletes a stray word that a 1989 act intended to repeal. Due to an error in the coded bill drafting format, the word remained in the statute.
21	Corrects the formula for apportioning estate or trust income by providing the appropriate distinction between income that is for the benefit of a resident of this State and income that is for the benefit of a nonresident. Effective beginning with the 1990 tax year.
22	Deletes a reference to a repealed law.
23	Corrects an erroneous cross-reference to the statutes providing general administration provisions, penalties, and remedies for the Revenue Act.
24-27	Amends gift tax, intangibles tax, and gross premiums tax statutes to delete cross-references to repealed statutes and substitute appropriate cross-references to preserve the substance of the law.
28	Clarifies that corporations as well as individuals may elect to apply all or part of their income tax refunds to the following year's tax liability.
29	Corrects a grammatical error.

| 30-34 | Clarifies that while the additional fee for vanity plates is credited to the Personalized Registration Plate Fund, the \$20.00 registration fee charged for all passenger vehicles continues to go to the Highway Fund. APPENDIX E

MEMORANDUM

TO: Myron C. Banks
Deputy Secretary

FROM: Michael S. Hodges, Director
Individual Income Tax Division

SUBJECT: Federal Tax Changes Affecting State Individual Income Tax

The federal income tax changes effective in 1990 which will impact our individual income tax are as follows:

Self-Employment Taxes Deduction

The Social Security Amendments of 1983, P. L. 82-21, added subsection (f) to section 164 of the Internal Revenue Code to allow an individual to deduct one-half of the self-employment taxes imposed under section 1401 of the Internal Revenue Code. This subsection provides that the deduction is to be treated as attributable to the trade or business of the taxpayer which means that it will be allowed as an adjustment to income. Although the provision was enacted in 1983, its effective date was delayed until tax years beginning on or after January 1, 1990.

G. S. 105-134.1(1) defines "Code" as "The Internal Revenue Code as enacted as of January 1, 1989, including any provisions enacted as of that date which became effective either before or after that date, but not including sections 63(c)(4) and 151(d)3." Therefore, the deduction for self-employment taxes allowed under section 164(f) of the Code will be reflected in North Carolina taxable income for the tax year 1990 and the effect on income tax collections may be substantial. We are sending Niki Underwood a copy of this memorandum along with statistical information from the Federation of Tax Administrators so that she may estimate the effect on revenue.

Optional Mileage Allowance

For 1989 the optional mileage allowance is 25½ cents per mile for the first 15,000 miles of business use of an automobile during the year and 11 cents per mile of business use for miles over 15,000.

The Internal Revenue Service has announced that with respect to business travel on or after January 1, 1990, the optional mileage allowance is 26 cents per mile for all miles of business use.

Revenue Reconciliation Act of 1989 (Title VII of the Omnibus Budget
Reconciliation Act of 1989)

The Omnibus Budget Reconciliation Act of 1989 was signed by the President on December 19, 1989. If our references to the Internal Revenue Code are updated to January 1, 1990, we will adopt the following changes:

(1) Employer-Paid Educational Assistance

Under federal law prior to the 1989 Act, an employee's gross income did not include employer-paid educational benefits up to \$5,250 annually under a qualified educational assistance program.

This exclusion, which was scheduled to expire for tax years beginning after 1988, has been reinstated and extended to tax years beginning before October 1, 1990, but only for amounts paid before October 1, 1990.

(2) Employer Group Legal Services Plan

Under federal law prior to the 1989 Act, amounts contributed by an employer to a qualified group legal services plan were excludable from the employee's gross income to the extent the employer-paid premiums did not exceed \$70 a year. Also, the value of the legal services provided under the plan were excluded.

This exclusion which was scheduled to expire for tax years ending after 1988 has been reinstated and extended to tax years beginning before October 1, 1990; however, amounts paid by employers for group legal services coverage must be paid before October 1, 1990, to qualify.

(3) "Like Kind" Exchanges with a Related Party

For exchanges of property prior to July 11, 1989, no gain or loss is recognized if property held for productive use in a trade or business or for investment is exchanged solely for property of "like kind" which is also held for productive use in a trade or business or for investment.

Under the 1989 Act, exchanges of property with a related party after July 10, 1989, are not eligible for nonrecognition of gain treatment if the property is disposed of within two-years of the exchange.

(4) Long-term Contracts

Under prior federal law, income from long-term contracts was required to be computed under either the percentage of completion method or the percentage of completion - capitalized cost method. Under the percentage of completion - capitalized cost method, a taxpayer was required to take into account 90 percent of the items under the contract under the percentage of completion method. The remaining 10 percent of the items under the contract were required to be taken into account under the taxpayer's normal method of accounting (e.g., the completed contract method of accounting).

The 1989 Act generally repeals the percentage-of-completion capitalized-cost method of accounting for long-term contracts entered into on or after July 11, 1989.

(5) Self-Employed Health Insurance Premiums

The deduction for 25 percent of health insurance premiums by a self-employed individual who was not a participant in a subsidized health plan maintained by an employer was scheduled to expire for tax years beginning after 1989.

The 1989 Act extends this health insurance premium deduction to tax years beginning before October 1, 1990; however, only those premiums paid for coverage before October 1, 1990, are deductible.

(6) Cellular Telephones-Listed Property

Under the 1989 Act, cellular telephones and similar equipment leased or placed in service after 1989 are treated as "listed property" so that MACRS depreciation will not be allowed on such property unless more than 50 percent of their use is in the taxpayer's trade or business. If such use is 50 percent or less, depreciation must be computed under the straight-line depreciation method over a 10-year period, rather than a 7-year period.

(7) Joint Purchase of Term and Remainder Interest

Under prior federal law, a common method of deferring tax was for two related individuals to purchase jointly a term and remainder interest in property. The owner of the term interest was allowed to reduce income from the term interest by the amortization of the cost of the interest. The owner of the remainder interest would have a gain when the property is sold or exchanged.

MEMORANDUM

Page 4

March 16, 1990

Under the 1989 Act, no amortization is allowed for a term interest in property for any period during which the remainder interest is held by a related person effective for interests acquired or created after July 27, 1989.

(8) Research and Development Expenses

For taxable years beginning before January 1, 1990, individuals may elect to deduct research and development expenses (R & D) currently instead of capitalizing them. A tax credit may also be available with respect to such expenses, and the deductible amount of R & D must be reduced by 50 percent of the amount of tax credit claimed.

Under the 1989 Act, the deductible amount of R & D expenses must be reduced by 100 percent of the amount of the tax credit claimed effective for taxable years beginning on and after January 1, 1990.
